Stennis welcomes first flight Saturday

BY LIZ HAAS

Hancock County Port and Harbor Commission executive director Buzz Olsen announced Monday Continental Airline has scheduled its first flight into Stennis International Airport April 17 from Atlanta.

"They will start with these charters to test us over the next six months," said Olsen.

Commissioner Pete Beebe, airport committee chairman, reported on the new six month budget of \$76,806 worked out by Olsen.

"We have conservatively projected 48 flights for the next six months," said Olsen.

He said, "Sun Country and Continental have offered to help train our employees in luggage handling, security, equipment handling and in other areas."

"We will handle all luggage for Casino Magic flights from Slidell to Biloxi, and they will provide us with a 24-foot step van to handle the luggage," he said.

Olsen reported that the commission has applied for a Federal Aviation Administration grant of

\$4,070,000 for improvements to the airport.

Olsen asked the commission to appoint a utilities committee to work with engineer Carlos Cordón and Zoe Bretzius-Bowers, who is in charge of treatment plant maintenance.

"With all these environmental changes it's getting to be expensive, so we need a committee to keep a handle on all of this," said Olsen.

Commission president Dave McDonald agreed to appoint a committee by the next meeting.

The commission approved to extend the Phillips Aviation existing fixed based operator contract for one month to May 16.

McDonald gave an update on the Salute to Business and Industry which will be a 7 a.m. breakfast on Friday, April 23 at the Diamondhead Country Club, with the program following at 7:30 a.m.

The commission approved the claims for the general operating docket, railroad operating docket, industrial park revenue docket, railroad car wash docket, t-hanger facility docket, port and harbor construction docket and the Stennis International Airport revenue fund docket.

Baldree supporters petition Bay-Waveland School Board

BY JACQUI COCHRAN

An overflow crowd waited nearly four hours Monday before being allowed to address Bay-Waveland School Board members.

Most were present to object to Superintendent Paul Tisdale's recommendation to transfer 16-year Waveland Elementary principal James Baldree to Bay Junior High.

Board members strictly followed the agenda, as approximately 75 parents, teachers, public officials and children crowded the meeting room.

Baldree voiced personal opposition to the proposed transfer, asking the board to overturn the recommendation.

He claimed an unfair job assessment by Tisdale as basis for the decision, and questioned

the logic of re-assignment.

"Mr. Tisdale said he didn't think I could get the job done...if you (the board) feel I cannot get the job done at Waveland, how can you expect me to go to the junior high?" Baldree asked.

Presenting copies of board policy, Baldree cited district needs, qualifications and individual desire as reasons for transfer.

He said, throughout the years at Waveland he has concentrated on the development of skills addressing lower elementary needs.

He freely admitted to being "out of touch" with junior high administrative regulations and developmental philosophies.

"I am firmly convinced there are better qualified persons, in this district, for the position."

"I have not requested this move...and if the position of principal is open at Waveland, I would like to apply for the job."

Baldree concluded, the district is losing teachers because of changes which ignore the worth of the individual.

Following Baldree's appeal,

Elementary school sends message of love, friendship to children of the Middle East

BY LIZ HAAS

A video letter produced at Bay Catholic Elementary was taken to the Middle East by a group of Los Angeles area educators as part of an international movement for peace called "Children of Hope."

Children of Hope seeks to bring together diverse groups of children across cultural, religious, political and language boundaries through telephone, computer and letter writing networks.

It is an effort to promote understanding, respect, compassion and empathy among children of the Middle East and their Western counterparts, with the hope they come to know each other as neighbors and friends.

"The goal of the video is to have a Christian school connect with Bay Catholic," said Connie Heitzmann, who heads the local project and is a member of the international steering committee.

The video was accompanied by artwork from the kindergarten class and letters from sixth graders as well as photographs describing family life.

"The purpose of the letter was to open communications by telling about ourselves," said

Heitzmann.

"We hope that we can go through the children to show us in a different way and extend a hand of friendship to them."

"We are not trying to change anyone, but want to teach them and us to respect our differences

and open communications," she said.

The group of educators will return from the Middle East at the end of April to report the progress.

EDITORIAL

Improve your mind; enter the world of books

A homeless man reads books about journalism and becomes a successful freelance writer. A single mother, embarrassed by her illiteracy, learns how to read to her children and becomes a tutor for others.

These might sound like far-fetched TV plots, but they are real-life stories, all set in the same place — the library. And they prove a very important point worth noting during National Library Week, April 18-24: Libraries change lives.

Every day, in more than 116,000 public, school, academic and special libraries across the nation; millions of children and adults are acquiring knowledge that changes their lives. Teens are learning about the dangers of drug abuse and AIDS. Unemployed people are getting help finding new jobs. Students are learning information skills that will help them succeed in later life.

Of course, the library is still a great place just to check out a good mystery or do homework, but the possibilities go beyond what most of us would imagine.

For all that libraries do for us, shouldn't we do something for them?

The first and most important thing we can do is use our libraries and teach our children to use, appreciate and support this great public service.

We can write to local, state and national decision makers and urge that our libraries be funded adequately. Too many libraries have been struggling with budget cuts during a depressed economy, forcing them to cut back on materials and services people count on.

Most of us probably don't think much about how libraries change lives, but wouldn't our lives be different if we had to live without them?

"QUOTABLE QUOTES"

By Ellis C. Cuevas

Our *Letters to the Editor* column gives readers an opportunity to express themselves on many subjects of general interest.

Many of our readers have differences of opinions from ours or from others, because not everyone thinks the same way.

We encourage our readers to use our *Letters to the Editor* column to express their opinions.

We do require that letters be signed. They should also include the author's address and telephone number in case we want to contact the sender.

Letters should be brief, preferably typewritten, double spaced, and conform to standards of good taste.

The Echo's *Letters to the Editor* column is your way to express your opinion.

Our readers may send their letters to: The Sea Coast Echo, P.O. Box 2009, Bay St. Louis, MS. 39521-2009, or bring them to our office at 124 Court Street, Bay St. Louis.

Letters of thanks, expressions of appreciation and political endorsements are considered inappropriate for the *Letters to the Editor* columns.

Bicyclers should be delighted at the prospect of a possible bike path in Bay St. Louis.

I know there are several bike riders who would like to see such a venture.

I am sure a bike path would increase the use of bicycles in Bay St. Louis.

Many of our streets are narrow, have no shoulders, have deep ditches, along with heavy traffic, and some bikers feel it is not safe enough to ride along with vehicular traffic.

Many cities today have special bicycle paths, and such a path would really be an asset to Bay St. Louis.

THE PEOPLE'S BUSINESS

From the Mississippi Economic Council

A recent advertisement placed in a major newspaper by the Mississippi Bar seeks to get the public thinking about America's legal system and just how good we've got it here. One would be hard pressed to find someone who would argue with the fact that, all things considered, we've got the best legal system in the world.

Principles such as "equal justice under law" and "inalienable rights" are the cornerstones of our system and serve as models for countries around the world because our system is designed to be fair to all.

Sometimes attempts to ensure fairness and make the legal playing field a little more level raise a few eyebrows or lead to charges that the real beauty of our legal system is

found. That change often begins at the state level. That's why recent efforts in tort reform have been pursued by Governor Kirk Fordice and members of the Mississippi business community, including the Mississippi Economic Council.

The Mississippi Legislature saw fit to make changes in our civil justice system, changes which will help protect more Mississippians from the threat of frivolous lawsuits and exorbitant jury awards.

These changes are not an attempt to cater to any special interest group. They are simply an attempt to ensure the fairness guaranteed by the American legal system.

And that is what makes the system, even with its faults, the greatest in the world.

Bay depot

This is a post card photo of the Bay St. Louis, Louisiana and Nashville Railroad Depot in the early 1900's. This building was replaced in 1930 by the structure that is now to be restored by the City of Bay St. Louis. The post card was published for Fahey Drug Company of Bay St. Louis. The round building to the left is a water tower used by the steam engines. (Submitted by Bob and Connie Heitzmann.) The Echo welcomes photos older than 25 years for publication. They will be returned to their owners.

LETTERS TO THE EDITOR

Public input makes little difference to school board

Dear Editor,

On Monday night I attended a school board meeting, and it was truly an experience. I left there finding it hard to believe we live in America where things are supposed to be fair and equal.

Mr. Baldree, principal of Waveland Elementary School, addressed the board and asked that he be reconsidered to retain his job as principal of Waveland Elementary School.

At the end of the meeting, the audience (which was standing room only) was allowed 10 minutes (to the second) to speak. When a parent asked what action would be taken on Mr. Baldree's request, a board member told her no action may be taken.

I very strongly feel that any employee who has devoted 16 years to a school system at the very least deserves an answer to his request from the board.

I wonder if people are aware that five board members (three

of which we have no voice in selecting) and a superintendent have the education of our children and the jobs of all school employees in their hands. It seems what the public thinks and wants does not matter.

I urge all concerned parents to attend a school board meeting and see how our board members represent us.

My eight-year-old daughter attended the meeting to be recognized for a Science Fair award. On the way home she said to me, "Mom, I can't believe that man said they were not going to give Mr. Baldree an answer about being principal. I wanted to stand up and tell that man, everyone deserves an answer to their question."

Isn't it a shame when an eight-year-old has more sense of fair play than the very people who hold their future in their hands?

Viewer wants Parental Control Channel back

To the Editor,

Now that Hancock County has a new cable company, Cablevision, they advertise that we will be able to "see the difference." Well, so far there is no positive difference.

In the fall, Multivision replaced our old boxes with new, up-to-date, more expensive boxes. The best thing about this deal was now parents finally had a parental control button to screen the trash channels we were receiving. You simply coded in a number and The Family Channel replaced the unwanted stations. This was absolutely terrific!

Then they changed the Parental Control Channel to WGNO.

A big mistake! Now instead of positive family viewing we get chainsaw-massacre movies and male strippers. We are paying for parental control that has been taken away from us!

I am writing this letter because after seven months of phone calls to these two cable companies to make them aware of the problem, they refuse to do anything without a petition of

some sort. Well, they will get their petitions.

It is a shame to have to go through so much trouble to convince a company that they made a ridiculous decision. This should have been a simple, common-sense, good business decision.

Does Cablevision have a "just-enough-to-get-by" attitude or do they have a problem with families wanting clean, wholesome viewing on TV? It seems Cablevision is ready to accept our monthly payments but not our monthly complaints.

Here a parent's dream-come-true device is not being used properly. A chance to clean up our well-paid-for television viewing is being denied us by Cablevision.

We want our Parental Control Channel back to The Family Channel! Even the Weather Channel would be a better choice than WGNO.

All right, Cablevision, after seven months of patience, show us the difference.

IN CONGRESS

By Rep. Gene Taylor

Timing is everything for future of shipbuilding

Unquestionably, one of the things that South Mississippi does better than anyone else in the country is building ships for the U.S. Navy. But because a majority of my colleagues in Congress and the Administration are saying we need to downsize defense, South Mississippi is now at a crossroads. However, as long as we take the right road, I believe we'll be alright.

This opportunity is in the world of commercial shipbuilding. Dozens of countries and corporations all around the world are now buying thousands of merchant ships. Last year alone, more than 2,000 merchant ships were purchased by large oil companies and cargo shipping companies. Unfortunately, our nation only made one.

It may not come to anyone's surprise that Japan built more than a third of all the world's merchant ships and three-quarters of all financing for the construction of these ships was handled by Japanese firms. They only designed a handful of these ships, but they mass produced more than 600 of them.

The Japanese and Germans have shown us that commercial ships are in demand. Now we must take advantage of our nation's, and in particular, South Mississippi's strengths by building something we know people will buy — commercial vessels.

We know the world is going to buy, in great volume, supertankers which are designed to meet new oil pollution regulations. Regulation will require

double-hulls on tankers and barges. The potential for U.S. shipyards to build these ships is outstanding. We now have advanced ship designs we know will work for this specific application. Furthermore, industry experts agree that our labor rates are once again competitive.

It is often said that when marketing a product, timing is everything. Well, we could say that we are at the right place at the right time with the right design. With South Mississippi's deep water ports and people who already know how to build ships, now is the right time to enter a very lucrative market.

There are a couple of things our nation must address before our shipyards begin building new designs. First, we must stop subsidizing foreign shipyards through U.S. foreign aid and military assistance. This is stupid and has got to stop. Second, I believe we must be willing to make the investment to build great merchant vessels not overseas, but here in this country.

In doing so, we will create hundreds of thousands of private sector jobs for the shipbuilding, steel and machine tool industries. We would ease our dependence on foreign-flag vessels to export and import American goods. And during any foreseeable international crisis we would send our military hardware on U.S. built ships, as opposed to depending on foreign vessels, as was the case during Operation Desert Shield/Storm.

Heitzmann said, "I think we're already seeing the benefits. We are proud to have developed a tape here to be sent to the Middle East."

A JOINT PROJECT

result of the experience of Camai, a non-profit, Alaska-based corporation that led the international effort to open the U.S./U.S.S.R. border. Camai promotes understanding and appreciation of cultural similarities

"I was told I may not even see the fruits of this project in my lifetime, but one day when these children grow up and may have to deal with each other, they may remember this tape from their childhood and it may make a difference," she said.

Heitzmann said the goal is to change an attitude one degree of consciousness. "We have already succeeded in this area," she said.

She said, "We want to build self-esteem in children in all countries."

"This project is to extend a hand of friendship, and that in itself will help ensure children's rights all over the world," she said.

The goals of the project are still in the planning stages.

"I think what's going to make this project successful is the focus on the children," she said.

She said this is not an exclusive project—it's inclusive and anyone with ideas should contact her because the group is open to all suggestions.

"It's like all my interests are interwoven now as a wife and mother, a kindergarten teacher, an entertainer and a church choir member," she said.

"I'm concerned about peace and pray quite a bit for it, but it's like one of my good friends said, 'You can pray to win the

lottery all day long, but if you don't buy a lottery ticket it's impossible," she said. "So I decided to do something to contribute. I bought the ticket."

"The more participation we get, the better. I want to see the South heavily represented in this project, and feel it will reflect on us positively," said Heitzmann.

BCE is asking for a \$10 donation for the "Children of Hope" video. The tape may be ordered at the school, 467-5158, or send \$10 to Bay Catholic Elementary, 301 Second Street, Bay St. Louis MS 39520.

Committee meets with Thomas

While in San Francisco, the "Children of Hope" steering committee had lunch with Marlo Thomas who played Sis Levins in the movie, "Held Hostage." In back, from left are Sis Levins, Pat Davis, Candy Forest; front, Linda Morrellington, Dixie Belcher, Marlo Thomas and Connie Heitzmann.

who has touched my life in any way, because they've all been a part of this project."

"We are especially thankful to Roger Garrett and Randy Allen from Channel 13 who created the video for us and to the SSC band for their help," said Heitzmann.

Heitzmann said BCE principal Ann Allen wrote the script for the video and created a logo overnight.

"She made it possible for us to go forward with this project," said Heitzmann.

Heitzmann attended a steering committee meeting in January in San Francisco to talk about the possibilities of connecting the children in the U.S. with children in the Middle East through communication.

"The video tape was created

larities and differences through student and cultural exchange, communications, technology and the arts around the world.

Dixie Belcher, who started Camai, wrote Bay Catholic in response to the video letter she took to the Middle East on March 31, "I hope that this is a beginning of many friendships between the children of Bay Catholic and children on the other side of the globe, who, although they may have very different lives, will probably discover that they have much in common."

MUSIC FOR PEACE

Heitzmann and her musical group, *Class Distinction*, which specializes in music of the 1940s, plan to produce a peace-oriented musical tape.

"The tape we are making is a long-term goal we're working on to promote peace involving musical communication through children," she said.

Heitzmann will co-produce the tape with Gene Foster at Studio in the Country in Bogalusa.

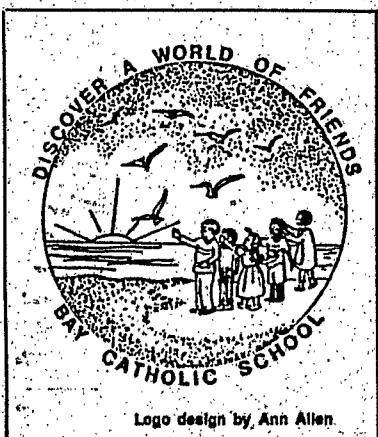

The group is looking for a song geared to children all over the world feeling good about themselves. Anyone wishing to submit a song may contact Heitzmann at 467-1892.

"I am grateful to use my music in a less ego-centered way," she said. "I don't do music just for fun anymore, even though it is still a lot of fun."

MAKING A DIFFERENCE

"I'm grateful to have been able to use all of my talents in this project. I am tired of seeing children mistreated, and feel I, like everyone, have the responsibility of doing even the smallest thing about it," said Heitzmann.

as a result of this meeting because I agreed to help get a video letter produced," said Heitzmann.

"This is quite a large multi-cultural, multi-faceted project," she said.

"Children of Hope" will be linked to a multi-ethnic, inter-religious world peace concert scheduled for May, 1994, in Lebanon, Syria, Jordan, Israel and Egypt that will include hundreds of children from the Middle East, the U.S. and Russia. IN AND AROUND DIAMONDHEAD

By Margaret Williamson

STRIKE 3, YOU'RE OUT

Remember those lazy hazy days of summers past when you yearned to be on the baseball diamond or in the stands watching, eating popcorn and peanuts and rooting for your favorite player and team?

Well, this Saturday, April 17, starting at 12 'til, come out to the Diamondhead East Rec and see all our kids in action.

The Diamondhead Youth Organization presents its opening day ceremonies with lots of baseball, coaches' clinic, and picnic, fun for all.

This most worthy organization feels that the time is now to address the present and future needs of the youth in the Diamondhead community and surrounding area. In the analysis and survey they conducted, they found the youth in the community to number between 650 to 750, a large percentage of the population.

They feel there is an extensive list of needs for the youth of the community. They cannot all be addressed at once, but they are willing and able to work with the POA on multi-year programs to fulfill these needs.

Please join this group of dedicated youth leaders by sending your check of \$10 (year's dues) to DHYO, c/o Ken Talley, 443 Yacht Club Drive, Suite 109, Diamondhead, MS 39525. They need everyone's support to realize their "Field of Dreams." Do come "play ball" on Saturday.

DIAMONDHEAD SQUARE AND COMPASS CLUB

All Master Masons are invited to attend or join their brothers at the Diamondhead Community Center the second Wednesday of each month. The club will have a fish fry for the members and their ladies sometime in May. Watch this column for details.

FIRE DEPARTMENT REMINDERS

The Diamondhead Fire Department reminds all resi-

dents that absolutely no burning of trash or so-called "controlled burning" of brush is allowed in the district without a permit from Chief Westbrook. He asks that residents please comply.

Reminder No. 2: CPR classes are available to groups of six or more. This is for established clubs and concerned citizens. If you're interested, call the station at 255-1314.

Bob Valigosky can still use folks to adopt an area, road, street or highway for the "Letter Free in '93" program. Call Bob at 255-7198. Do your part and pick up along your way.

NEWCOMERS' BINGO

Those "wild and crazy ladies" are at it again. They've planned a fun lunch and afternoon bingo party for Friday, April 23, starting with a cash/bar at the Diamondhead Day's Inn at 11:30, lunch 12 p.m. Cost is \$12 per person.

Make your reservations early, sending your checks to Evelyn Kibler, 6525 Koula Drive, Diamondhead, MS 39525. Bring your lucky charms.

DIAMONDHEAD COUNTRY CLUB

All you folks who like good music and great food, make reservations now for the membership appreciation dinner dance Saturday, April 17 from 6-10:30 p.m. The menu consists of rib-eye steak, potato boat, broiled tomato with feta cheese and black olives. Yum! Dessert is bread pudding with whiskey sauce. Cost is \$14.95. Music is by Leon Kelner and Katrina. There is limited seating, so call now, 255-2919. Thanks, members!

ACADEMY HAPPENINGS

A reminder that April 30 is the last day to pre-register for the 1993-94 school year which begins on August 16. Fee is \$50. After April 30 the registra-

tion fee will be \$100. All you parents, who are determined that your children should receive quality education in a lovely air-conditioned building with a country setting, please take advantage of this pre-registration time. Our children are our future leaders.

For more information, please call the academy at 255-1784.

NEW ORGANIZATION

The Diamondhead Woman's Club held its first meeting Monday, April 12, 10 a.m. at the Community Center. There were about 25 ladies in attendance. The dues are \$10 per year with lots of ideas for various functions and fund-raisers planned for the future.

The main focus for this civic group will be the Alzheimer's Foundation.

Patty Price gave an interesting accounting of the Hancock County Food Pantry located behind the Bay St. Louis Courthouse Mon.-Fri., 9-12. Volunteers, and of course always food items, are needed for this community project. Please call Patty at 255-3127 to help. More news about the Diamondhead Woman's Club in future columns.

SURVEY

We would like to hear from the senior ladies and gentlemen in Diamondhead who are in fair health and ambulatory about receiving transportation semi-monthly to the shopping center, drug store, doctor or dentist, etc. for a minimal fee.

Please call me, Margaret Williamson, at 255-1317 if you would like to see this type service initiated in Diamondhead.

COOKING UP A STORM

By Katy McGuire
Caire

Although many vegetables were known to the ancient Greeks and Romans, for some time down through history it was considered a sign of poverty to eat vegetables until at last gourmets and would-be gourmets began to take an interest in "plant life" and to devise tasty ways of cooking vegetables. And, vegetables became familiar on the dinner tables of Europe and other countries as well.

As travel to the New World began, new and strange foods were brought back to Europe by the explorers. The French, especially, developed excellent ways of cooking vegetables, as, for that matter, did the other countries of Europe. And, of course, New World cooks made full use of the various vegetables from earliest days.

One of my favorite vegetable mixtures is Ratatouille (Rah-tah-too-ee). It's one of those variable dishes, with just about every cook adding this or deleting that, according to taste and what's on hand. It's a melange of fresh tomatoes, eggplant, squash and onions cooked with garlic in oil, with mushrooms and bell (green) peppers added if desired. Here's a simple and basic:

RATATOUILLE

1/2 lb. onions
1/2 lb. small squash of your choice
1 small eggplant
2 or 3 large tomatoes.
Olive oil
Chopped garlic to your taste

Pepper, salt to your taste
Grated cheese as desired.

Dice the vegetables coarsely together. Sauté the onions in the barest amount of olive oil, then add the other vegetables, mixing well together. Season to taste, cover the pot and let the mixture simmer over a low fire for a half hour or so. Sprinkle with grated cheese and serve.

Button mushrooms and sliced green peppers add a tasty touch to the mixture as it cooks. If your ratatouille is too dry, add a little water or white wine or broth; if watery, add bread crumbs. Some cooks prefer to fry off the vegetables separately, layer them in a casserole and bake slowly for 45 minutes or so. (4 to 6 servings)

This is also tasty when chilled and served as a salad or relish. It's also a good dip for raw vegetables or chips of one sort or another; and it's a tasty filling for halved hard-cooked eggs.

Extra care keeps hamburger safe

By Bethany Waldrop
MSU Information Services

Because of the recent incidents in Washington state, many people now wonder if hamburger meat is safe. But ground beef and whole cuts can be safe and nutritious if a few common-sense safety rules are followed.

The first place to observe safety rules is the grocery store.

"At the meat counter, make sure the meat is not older than the use-by date," said Dr. Melissa Mixon, human nutrition specialist with the Mississippi Cooperative Extension Service.

"Make sure the meat is cold—that it's below the chill line in the meat cooler. Buy meat last so it won't reach room temperature while you're in the store," Mixon added.

Mixon suggested keeping a cooler in your car for meat if the drive home is long or the temperature is hot.

Take precautions with food safety in the home.

"Out of the estimated 33 million Americans that have food-borne illness every year, about 21 percent are from mishandling food in homes," Mixon said. "Twenty-five percent of those cases could be eliminated by proper cooling techniques in the home."

Mixon said to refrigerate meat immediately at home. If you don't plan to use the meat within two days, freeze it.

"It's very important to prepare, cook and serve the meat with as little time as possible

between each step. The reason for this is to make sure the meat does not stay at room temperature for more than two hours, which will allow bacteria to grow," Mixon said.

"This two-hour period is cumulative—so if you pick the meat up, spend 30 minutes in the store, have a 20 minute drive home and then leave it out on the counter for more than an hour, you could have trouble," Mixon said.

Mixon suggested pre-planning the use of frozen meat. She said the safest way to thaw the meat is in the refrigerator, which can take six hours to overnight.

Silver Tea

Bay Town Inn the setting
for Christ Episcopal fund-raiser

Special to the Echo:
The women of Christ Episcopal Church in Bay St. Louis will host a Silver Tea from 2 to 5 p.m. April 25 at Bay Town Inn, the city's first bed-and-breakfast home.

Located at 208 North Beach Boulevard, the turn-of-the-century house was built in 1899 by the L.A. de Montluzin family

and remained their home for five decades. In 1992 it was purchased by Judy Lipscomb of Jackson, who converted it into a spacious, seven-bedroom bed-and-breakfast inn.

Open since August of 1992, the inn has delighted its guests as an obvious link between the new use of the revitalized home

and the gracious Southern traditions implicit in its high ceilings, wide central halls, large rooms, and broad veranda overlooking the bay.

Travelers seeking informal, homelike accommodations have registered from dozens of states throughout the nation and from as far away as England and Germany.

The Silver Tea is an annual social event, proceeds from which support the work of the Episcopal church women in many charitable areas. The public is invited to attend.

Co-chairing this year's tea are Grace Santa Cruz and Malin Chamberlain.

Under Section 554 of the National Defense Authorization Act for Fiscal Year 1992 and 1993 (Public Law No. 102-190), as amended, Congress has authorized payments to ex-POWs from the Korean Conflict as compensation for unused leave accrued during their captivity.

Those applicants whose prisoner of war status can be verified by the Department of Defense are automatically eligible for a single \$300 compensation payment.

Ex-POWs who wish to claim a larger amount must provide specific information regarding dates of captivity, highest grade held during captivity and the number of lost leave days for which the applicant is seeking compensation.

Payments in these cases will be computed using the 1952 pay scale. Payments on behalf of deceased individuals are not authorized.

DoD estimates that current addresses are available for approximately 2,000 of the 4,400 service members repatriated in 1953. DoD has sent a

Compensation payment to Korean Conflict POWs

letter, as well as a claim form, to each of these ex-POWs to inform them of their possible eligibility for payments under the new law.

Because the DoD address list is not complete, anyone who believes that he or she may be eligible for payments under this program, or knows of an ex-POW who is eligible, and who has received no official notification, should immediately contact the Defense Finance and Accounting Service with his or her full name, address, telephone number, Service compo-

nent, Service number, Social Security number and any other information pertinent to the claim.

Claims should be forwarded to:

Defense Finance and Accounting Service, Kansas City Center, Debt Management Division, Claims Branch (FYC)-Korean POW, Kansas City, MO 64197-0001.

Claim forms are available at my office at 149 Main Street across the street from the courthouse. Or you may call 467-2100 and I will be glad to mail one to you.

Hancock system celebrates National Library Week

Libraries and librarians across the country will celebrate the contributions of America's libraries during National Library Week, April 18-24. Their message: "Libraries change lives."

"Information is power. And we librarians are in the business of empowerment," said Prima Plauche, director of the Hancock County Library System.

"Today, there are more than 116,000 public, school, college and special libraries in the nation, many offering an array of sophisticated information resources, such as online databases, CD ROMs and videotapes.

"Their mission, and ours, remains unchanged: to provide the books and other information resources that help people of all ages and backgrounds to live, learn and enrich their lives."

Plauche also noted that circulation traditionally rises during a tight economy when even more people turn to the library for assistance with career and job information, as well as leisure enjoyment.

"But there are still people who do not understand what's available to them and how it can help with everyday concerns, such as preparing a business plan or starting a sugar-free diet," Plauche explained. "We want everyone to know we are here to help."

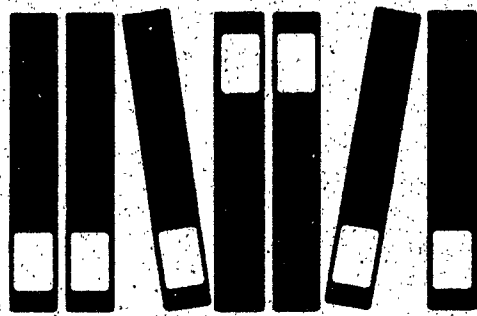

escape from an impoverished home and the burden of caring for her mentally ill mother. Today, Gloria Steinem, well-known author and feminist, says: "I am entirely a product of libraries. You have made me what I am today."

Julie Brice and her brother Bill of Dallas, became millionaires before the age of 30 after launching the "I Can't Believe

library becomes rich and famous. But for many millions it has been the place where they sought to better themselves.

Andrew Carnegie believed so strongly in the library's role as "the people's university" that he invested \$50 million of his own dollars to build them in some 1,400 communities around the turn of the century.

Hamburgers Continued from Page 7A

She said you can thaw meat in the microwave, but you must use it immediately.

Safety precautions are often overlooked when preparing meat.

"Washing your hands before touching raw meat is very important because E. coli, the bacteria involved in the Washington state incident, can exist naturally in the intestinal tracts of humans and food animals," Mixon said. "So personal hygiene is very important."

Meat can be safely prepared if you avoid cross contamination. Thoroughly wash hands, utensils and cutting boards that have touched raw meat with warm soapy water.

"Make sure hamburgers are cooked until they have no pink inside and the juices run clear. The rarer you cook your meat, the more risk you take," Mixon said. "Serve cooked meat on a clean plate."

"In the recent E. coli incident, the meat was cooked to less than 155 degrees, which is the temperature standard in Washington state. So just a few degrees can make all the difference for destroying the bacteria," Mixon said.

The U.S. Department of Agriculture recommends 160 degrees as the correct cooking

temperature for hamburger. Refrigerate any leftovers immediately. Reheat leftovers to 165 degrees before serving, Mixon said.

With a few extra steps, the meat can be not only safe, but also delicious and nutritious.

"Lean beef can play an important role in a nutritious diet. It's a good source of protein, iron and B vitamins. The key is moderation — about a 4 to 6 ounce serving is best," Mixon said.

The nutritionist suggested selecting the leanest cuts possible, such as ground chuck, ground round and round steak. Appropriate cooking methods and spices can make up for the absence of fat.

"Use a slow, moist method to cook the meat — such as in the oven, a slow-cooking pot or in a covered skillet. Another way is to cut the meat into thin strips and use it in a stir-fry," Mixon said.

"Use fresh spices, herbs, peppers, onions, mushrooms and tomatoes to add extra flavor to the meat," she said.

"Remember that the United States' food supply is the safest in the world. Mistakes occasionally happen, but sometimes those can be corrected if people take the time to be careful in their homes," Mixon said.

Tips On Writing EFFECTIVE Classified Ads

● **STICK TO THE FACTS**
Prospective buyers need to know details, like the condition of the item for sale, the size, brand name, color and any other relevant information that would help them make a decision.

● **BE HONEST**
Aside from being unethical, exaggerating or misinforming potential buyers won't help you make a sale, and may only serve to lose a prospective buyer's trust. Even if they come to look at what you have to sell, they'll be less likely to buy the item or trust you once they see they've been misled.

● **SPELL IT OUT**
Abbreviations are not easily understood by many people and may even confuse a reader. It only takes them a second to pass over an ad because it doesn't seem clear, why let it be yours because you abbreviated a description?

● **THE BOTTOM LINE**
State the price. You'll save yourself the hassle of having to answer calls from prospects who, upon learning the price, are not really interested. Price is the first thing they'll look for when reading your ad, and when prospects know the price, you'll know you have a serious buyer on the line.

● **BE THERE**
List the best hours to call and make sure you're at home. If you don't list a specific time, you could be flooded with calls any time of the day or night. And when you're not at home to take calls, most likely, they won't call back.

● **ASK US**
If you aren't sure how to word your ad or what features to include, why not ask us? Our professionals on staff know how to create an effective ad that sells, they're always willing to help, and there's no charge!

The Holmes Show

Larry Holmes (57-4) toyed with opponent Ken LaKusta (21-20-1) Tuesday, until the eighth round when LaKusta's corner chose not to allow their man back into the ring. Holmes had managed to place a large mouse and two cuts around LaKusta's left eye during the seven-round bout held at Casino Magic. The fight received live coverage from cable television's USA network. This was the third fight sponsored by Casino Magic featuring the former world heavyweight champion, and the second for the Bay St. Louis area. Holmes prepares now for a May 18 fight on USA, while he continues to seek a title fight. In other bouts: Danny Romero defeated Alberto Cantu, stopping the fight in the third round of the junior bantamweight bout; Richie Albrecht claimed a unanimous decision over Terry Whitaker in a junior welterweight bout; junior middleweight Jason Papillion won a unanimous decision over Earl Skipworth; and Dan Schommer received a unanimous decision over Nicky Walker in a super middleweight bout. Treasures in the sand

Oceanography study came to life for Harriet Bel-
lone's eighth grade class at St. Clare as they joined
second graders recently for a beach science lesson.
To their surprise and delight, Colleen Kirby and
Joann Mestayer, left, found sand dollars scattered
among debris.

Above: Sara Mason, Michelle Lady, Dana Harris,
Laurie Lachner, Jamie Goudreau, Joshua Cozzano,
Danielle Hamley, Julie Henson and Carey Schmitt

Eighth grader Jason Vincent, below, shows second
graders Branna DeGeronimo and Courtney Creason
holes formed in the sandy bottom by tiny creatures
in the Mississippi Sound.

Eighth graders Lauren Tusa and Joy Bordages
use a small net to filter sandy bottom samples
from the Sound. Others from left are Peter
Murphy, Colleen Kirby, Jessica Underwood and
Anna LaFontaine.

The St. Clare eighth graders conducted oceanography on
the beach and in the classroom over a two-week period
and shared their results with the second graders. St. Clare

CONSUMER UPDATE

Consumer credit legislation in the works

By Janet K. Lukens
Area Consumer Money
Management Specialist

We may see improved legislation regarding credit reporting as proposals for changes to the Fair Credit Reporting Act (FCRA) should receive considerable attention and debate in Congress this year.

One proposal for change comes from Representatives Shaw (R-Fla.). It would require credit reporting agencies to provide consumers with free written notification within 30 days of any adverse information reported about them.

This legislation would greatly increase the duties of credit

reporting agencies in informing consumers. However, for consumers it could virtually eliminate the problem of credit denial without notice of adverse information.

A point calling for definition in this legislation is "what constitutes adverse information?" Federal Trade Commission interpretation of the term adverse action includes a credit grantor denying a charge request because the consumer is over his/her credit limit.

Some form of legislation involving changes in consumer access to their credit report will also be considered. Proposals range from mandating a free

credit report to every consumer or a free credit report upon request by the consumer, with proposed frequencies being either once a year or once every two years.

Current law allows a consumer a free copy of their credit report within 30 days following an adverse action (for example, credit denial) based upon information in their credit report. Consumers do have a right to a copy of their credit report at any time — but there is a charge.

Credit reports are the subject of a large percentage of the calls received by our Biloxi Consumer Money Management Center.

New legislation may bring relief to consumers frustrated by the difficulty in accessing credit information and correcting inaccuracies in credit records.

One of the most frequently asked questions regarding credit information, especially adverse information, is "how long does the information remain on the credit report?"

All creditor and court record information, whether negative or positive, with the exception of a Chapter 7 or 11 bankruptcy remains on the report for 7 years according to Fair Credit Reporting Act. Most consumers are surprised to know that credit habits follow consumers for this length of time.

Another frequent credit question relates to the time span and payment arrangements allowable on a delinquent credit account. Many consumers believe, as long as something is paid, the creditor cannot pursue collection.

However, this is not true. As long as the legal contract is not adhered to, the creditor has the right to pursue collection and legal action if he so desires. It is of the utmost importance when paying bills to make arrangements in advance if full payment cannot be made.

If you have an interest in consumer credit legislation and with your input to be heard, the following committees can be contacted:

In the House, contact the Subcommittee on Consumer Credit and Insurance, chaired by Rep. Joseph Kennedy (D-Mass): 504 O'Neill Bldg., Washington, D.C. 20515 (1-202-225-8872).

In the Senate, contact the full Senate Banking Committee, Senator Don Riegle (D-MI), chair, 534 Dirksen, Washington, D.C. 20510 (1-202-224-6348).

HNCE, Waveland to hear jazz band

The number of schools scheduled to hear live Dixieland Jazz music played by Mississippi Coast Jazz Society volunteers, has grown from 14 to 23. Before this year's program ends, more than 10,000 students will enjoy live Dixieland music.

The Jazz Society funds this program from the profits earned during its annual jazz festival held each November in the Royal d'Iberville hotel. Among schools slated to hear the jazz concert are Hancock North Central Elementary and Waveland Elementary.
